

SALTCO

A HOLISTIC APPROACH TO WELLBEING

Cord and Globe Guide

Salt Lamps & Salt Cages

24v CORD
(Black only)

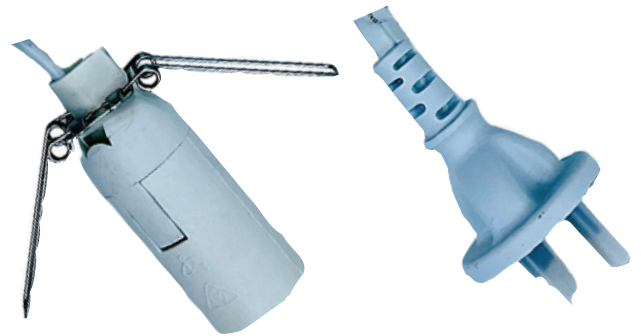

Compatible with
24v 10w and **25w** globes

Globe boxes may be unbranded.

Selenite lamps & Crystal Cages

220 – 240v CORD
(White only)

Compatible with
240v 1w LED, 7w & 15w globes

Globe boxes may be unbranded.

Please note: You must not use 24v globes in 220v-240v cords THEY WILL BLOW.

The new **24v cord** has a big black box (**adapter**) where the plug is and a **silver tag** so they are easy to distinguish from the old 220-240v electrical cords.

All globes have written on the physical globe what its voltage and wattage is, so you can always check the globe if you are unsure.

If you purchase lamps, cords and globes from multiple sources, please be aware that other suppliers cords and globes may not be compatible with ours due to differing voltages.
